XII	Science	Mahatma School of Academics and Sports	Maharashtra	2019	61.84 %	I
X	General	K. A. Banthia School	Maharashtra	2017	89.6 %	I

Academic Projects

Title	:	CareerConnect - Job Portal Web Application		
Platform	:	Spring Boot(J2EE), React, MySQL, ASP.NET,	Duration :	1 Month
Description	:	CareerConnect is a web application designed to simplify the job search process by offering a user-friendly platform for both job seekers and employers. The platform allows job seekers to easily browse job listings, submit applications, and track the status of their applications in real-time, enhancing transparency and user engagement. Employers are provided with a streamlined system to manage job postings, review applications, and communicate effectively with potential candidates. A key feature of CareerConnect is the real-time application status tracking, which fosters a more transparent and engaging experience for users. The platform also emphasizes security by ensuring secure user login and data protection. The design and functionality of CareerConnect have been praised for their intuitiveness and robustness, ultimately leading to improved user satisfaction. Motto: Connecting Talent with Opportunity, While Ensuring Transparency and Trust in Every Step.

Title	:	Real estate service website		
Platform	:	MERN	Duration :	1 Month
Description	:	The Real Estate Service Website project is a comprehensive platform developed using the MERN stack with MySQL replacing MongoDB (MySQL, Express.js, React.js, and Node.js). This website serves as a dynamic and user-friendly interface for real estate services, allowing users to search for properties, view detailed listings, and connect with real estate agents. The backend, powered by Node.js and Express.js, ensures robust data handling and secure transactions, while MySQL provides a reliable and structured database solution. The frontend, built with React.js, delivers a responsive and seamless user experience.
